

Reusable Products and Accessories Limited Warranty

Tulip Medical Products warrants its reusable cannulas and accessories, and all parts thereof except as set forth below, to be free from defective materials and workmanship for the period of one year from the date of original purchase. This warranty covers parts and labor.

A 6-month Warranty Extension is available to customers who participate in Tulip's Year-End Product Evaluation. To participate, please contact Tulip Medical Products before the end of the 12-month warranty period and request the Warranty Extension. Tulip Medical Products will inspect your product(s) for wear and tear and advise on any repairs necessary to extend the warranty period.

As with all reusable medical devices and instrumentation, the lifespan of the product is based upon reasonable use and proper care. Reusable surgical instruments are subject to limited wear and reuse. Tulip Medical is not liable for the loss of production or operating room efficiency caused by user or equipment use error(s). Unauthorized tampering with or changes/modifications to the product will void all warranty coverage. This limited warranty is not transferable and will not apply to resold products.

Customer is responsible for the cleaning and decontamination of any product being returned to Tulip Medical Products for either warranty repair or non-warranty repair. Furthermore, customer is required to obtain and complete a Certificate of Decontamination which must accompany all product(s) being returned for repair.
